GAOTek Follow Mechanical Electronic Anti Shake Drone with Camera

1. Technical Specifications:

Model	GAOTek-FMD-161
Pressure sensor	GPS
Receiver	2.4G
Remote control mobile phone clip size (Support maximum phone size)	5.5 inch
Remote control battery	3.7V 300mAh
Capacity of smart lithium battery	7.4V 1300MA
Control distance	500M
(Free interference and no occlusion)	
Flight time	About 16-18min
Charging time	About 2.5 hours
USB Charging (5V)	√
Product size	fold:21*18*8.5 cm unfold:37.5*39*8.5 cm
Storage box size	26.5*21*9CM
Carton size	79*31*49cm
G.W./N.W.	12.2/10.5 kg
Flight Weight	202g
The weight	680g
The battery weight	58 g
The motor model	8520 BRUSH

PCS/CTN.	24 PCS
Camera parameters	
APP name and system	LW PRO (system : IOS Android)
HD camera	√
Camera lens	Adjustable camera by transmitter, 90°remote control
WIFI image transmission distance	300M
(Free interference and no occlusion)	
GPS	√
GPS follow	√
Trajectory	√
Fixed-point surround	√
Auto return	One key return, low power return, lost contact return
Focal length	50 zoom
3d rolling	no
Dual camera switch	√
Front Camera Photo resolution	1920*1080
Front camera Video resolution	1920*1080
Frame rate	25 fps
