## 9. Using Amazon Echo Quick Guide

### What You'll Need...

Amazon Alexa APP & Account "Smart Life" or "Tuya Smart" app & Account (Users need to register your own account, select region as "The United States")

Echo, Echo Dot, Tap or other Amazon voice operated devices.

### Related device

Tip: Rename the device after configuring successfully, the name of the device is recommended to use easy pronunciation of the English words.

(Amazon Echo only supports English temporarily)

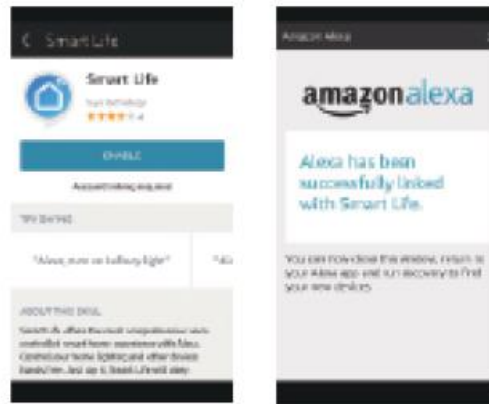

### Set Your Echo Speakers by Alexa APP

1. Sign in with Alexa account & password (if not registered, sign up first); After login, click the menu at the top left, then click "Settings", and choose "Setup a new device."
2. Choose a device (for example, Echo). When the right page appears, long press the small dot on your Echo device until the light turns to yellow. Then click "Continue" on App.

(Note: at this time the mobile phone cannot open variety of VPN software)

3. Choose users ' WIFI and wait for few minutes.
4. After an introduction video, click next step, it will turn to "Home" page automatically. Now the Echo is connected to Alexa APP through WIFI successfully. Enable Our Skill in Alexa APP
  - Choose "Skills" in the options bar, and then search "Smart Life" or "Tuya Smart" APP in the search bar; Select "Smart Life" or "Tuya Smart" APP in the search results, and then click "Enable".
  - Input the user name and password that you had previously registered (Only support the account in the United States); When you see the right page, it means the Alexa account s linked with "Smart Life" or "Tuya Smart" APP account.

After the previous operation, you can control the socket via Echo.

1. Discovering devices: Firstly, users need to say to Echo: "Echo (or Alexa), Discover my devices." Echo will start to finding the devices which is added in 'Smart Life APP, it will take about 20 seconds to show the result. Or you may click "Discover devices" in Alexa APP, twill show the devices that found successfully.

Note: "Echo" is one of the wake-up name, which can be any of these three names (Settings): Alexa/Echo/Amazon.

## 2. Support Skill List

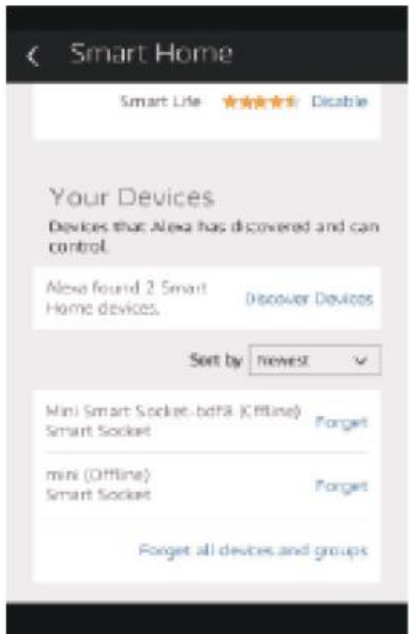

User can control devices by instructions like below:

Alexa, turn on [fridge socket]

Alexa, turn off [fridge socket]

Attention: The name of the device must be consistent with the addition of "Smart Life" or "Tuya Smart" APP.
